Code42 Foundations
Sunday, April 8
2:00pm - 7:00pm

Code42 Foundations begins with fundamental client and end-user information particularly applicable for help desk personnel and administrators new to Code42. Following an examination of the end-user experience, instruction will progress to an administration console review and an analysis of Code42's global administration configurations, focusing on how to define default backup settings and configure organization settings such as offered destinations and security policies.

Code42 Agent Deployment and Customization
Monday, April 9
8:00am-12:00pm, 1:00pm-5:00pm

In this session we will discuss and utilize Code42's app customization and deployment procedures as well as review enhancements to Code42's integration with LDAP and Okta.

'18.Xpert: What's New Since Code42 6.0
Monday, April 9
8:00am-12:00pm, 1:00pm-5:00pm

Get up to speed on the latest Code42 product releases! In this session we will discuss and utilize new features introduced since version 6.0. Topics will include Security Center enhancements; agent updates, deployment and customization; and user interface upgrades. This course is recommended for those who have previously completed a Code42 education course or who have a high level of experience with Code42.

An In-Depth Look at Code42 Security Center
Monday, April 9
8:00am-12:00pm, 1:00pm-5:00pm

Code42 Security Center, released with version 6.0 of the Code42 platform, is rapidly expanding to better identify and monitor end-user behavior. In this session we will review Code42 Security Center's dashboards and monitoring features and examine Code42's endpoint monitoring data collection and analysis processes.

Code42 API Workshop
Monday, April 9
8:00am-12:00pm, 1:00-5:00pm

Walk through the Code42 API and get script recipes and hands-on guidance for use cases such as custom reports, integration with external monitoring systems and automated restores. Basic knowledge of the various UNIX/Linux shell environments (e.g. BIN/BASH/BOURNE) is recommended.

Code42 Certified Administrator Exam
Monday, April 9
1:00-5:00pm

New for Evolution18! Attain your Code42 Administrator certification by taking an in-person, proctored exam as part of pre-conference education. Upon successful completion of the two-part exam you will earn a certificate of completion, a badge for your Code42 Community avatar and an exclusive invitation to the annual certified admin breakfast with Code42 executives at Evolution18. While there are no exam prerequisites, we strongly encourage thorough review of the study guide (to be provided) prior to attempting the exam. Code42 University also offers on-demand, classroom, and virtual instructor-led courses to further help you prepare. For more information on ongoing course offerings, check out Code42 University.
